WMNT9 C

Additional Information

- Rigid concealed fixing
- Will fit any kind of wall construction including stud, plaster, brick etc (provided correct fixings are used).
- Ideal for ensuring a secure fixing, when using non-rigid pipe work
- Available in two versions WMNT5 and WMNT9 suitable for stud walls with cavity depth 50-90mm and 50-62mm respectively (Dimensions taken from rear of cavity to front of shower wall). The WMNT9 is suitable for mixers with 110mm, 130mm and 150mm centres.
- Can be fed from any angle with 15mm pipe work
- Decorative shrouds protect and conceal tile/wall edge
- Please see our Product and Price Guide for details of bar showers and wall-mounted mixers available.
